## Civil Action Arises Out of Assault Case

**Victims of Assault Bring Action  
for Damages Suffered from  
Wedding Fracas**

Before Judge McDonald, of Macleod, in the case of Mike and Steve Hudz vs. Mike and Tom Biele was heard at the District Court held in the town hall on Tuesday. The claim of the plaintiffs arose out of an assault causing grievous bodily harm at a wedding party in East Coleman early this year, when the plaintiffs were wounded to such an extent that hospital treatment was required. For this assault the defendants were fined \$100 and costs. Later a civil action was instituted by the plaintiffs for damages consisting of clothing, loss of time from work, costs of medical attention, etc., to the extent of approximately \$400. The plaintiffs were represented by J. E. Gillis, barrister, of Blairmore, and the defendants by S. G. Bannon of Blairmore and M. H. Moscovitch of Lethbridge. Decision will be given at a later date.

### Childish Innocence

"What happened on Good Friday?" asked the rector examining the local Sunday school class on the historical importance of the day. One eager boy shot up his hand and his answer was, "We had hot cross buns on Good Friday."

### Local Play Coming

A three act comedy with a cast of nine local people will be presented in a few weeks time, the name of the play being "On the Hiring Line." Doubtless this will be given good support by the public, as the proceeds are to be given towards the reduction of the debt on the swimming pool. The local branch of the Women's Institute is sponsoring the play, and the director is Mr. Arthur Graham. It will likely be played in the Grand Theatre.

### Expresses Appreciation

Mrs. A. W. H. McLeod, speaking of the fire which did considerable damage last week to their home, wished to express her thanks for the splendid assistance rendered by neighbors who came to their assistance, and saved the greater part of their furniture and household effects.

### Spring is Backward

Equally and chilly weather has been the general condition during the past two weeks, with very little of Alberta's sunshine. The road between Fernie and Coleman is not fit for traffic yet, and four automobiles en route from Los Angeles to Swift Current and Regina were loaded on flat cars at Fernie and brought here on Wednesday, the owners continuing their journey from here by road.

### Suicide of Well-Known Rancher

**Joseph Morgan of Lundbreck District Suffered from Fit of Depression—Funeral Last Friday**

Joseph Morgan, well known to many residents of the district, who for over thirty years farmed south of Lundbreck, took his own life by hanging in the barn on Tuesday of last week, presumably due to a fit of melancholia. He was well thought of and no reason can be assigned for the act. He is survived by his wife and four brothers and a sister. They are George of Coleman, Evan of Blairmore, William of Calgary, Edward of Vancouver and Mrs. Bush of Creston, B.C. He originally came from North Wales, and prior to coming to this district was in Winnipeg, having worked for Bishop Pinkham, former bishop of this diocese.

The sympathy of their friends is extended to the relatives in his death. The funeral was held at Pincher Creek on Friday. Deceased was 62 years of age.

### Card of Thanks

Mrs. Joe Morgan, sisters and brothers desire to thank their kind neighbors and friends for their kind assistance and expressions of sympathy in their recent sad bereavement and for the many beautiful floral tributes received.

### Fire Brigade Needs Re-Organization

**Mayor States Criticism on Non-Efficiency Has Been Justified—Committee Must Get Busy**

A meeting of the town council was held on Tuesday evening, the following being present: Mayor Burns, Crs. Pattinson, Rushton, Smith, Fraser and J. Moore.

Following the adoption of the minutes, H. Snowdon requested that he be permitted to erect a sign on his office. This was granted on it being erected in compliance with the bylaw governing same.

The report of the fire chief was submitted, dealing with the fire of last week. The delay of the fire truck in getting to the fire was owing to two cylinders being gummed up through linseed oil having been placed in the engine, which the chief was at a loss to account for. This drew forth considerable discussion, and Cr. Moore stated that he had tried the engine following the fire, and found that in addition to this trouble, the engine would not start readily unless it was kept at a higher temperature than that of the fire held in cold weather.

He also stated that the engine should be tried out twice a day, and that the water in the radiator should be kept at a temperature which would enable the engine to start the minute it was required.

It was also stated that none of the men resident at the fire hall could operate the truck, which brought forth the opinion that the men be instructed in its operation or men secured who could operate it.

Under the condition existing the fire engine was of little more use than a hose reel which could be drawn by men or horses. There was also general criticism of the lack of organization in the fire brigade, which hindered effective handling of hose and equipment at a fire.

The result of the discussion was that owing to the lax method in which the equipment has been handled and lack of organization, that the fire committee go thoroughly into the matter of putting the brigade on an efficient basis so that delays such as occurred last week would not occur in future, and that the engine be taken out at least once a day to ensure its being kept in readiness for action at a moment's notice.

The costs of burial of an indigent ward of the town who had died at Calgary was passed, amounting to \$80, also hospital account of a child at Edmonton, who is to be removed to Calgary. The relief committee's report by Cr. Fraser was adopted, a certain case having been investigated and the chairman reporting that he did not consider the town was warranted in granting financial assistance in this case.

A short discussion took place relative to beautifying the town by planting trees, and several councillors strongly voiced their opinion on the damage caused by livestock being allowed to run at large, causing damage to trees and hedges which was not only most annoying but discouraged people from spending money on trees and shrubs.

Before any plan could be fostered for beautifying the town it would be necessary to see that proper steps were taken to enforce the laws against those who were responsible for livestock being at large.

A request for the use of the council chamber for practices of an amateur orchestra being organized was granted.

### Coleman Represented at Musical Festival

The fourth annual musical festival at Blairmore which terminated last evening proved a greater success than ever, every seat being filled and a large number standing throughout the three-hour program last evening. Last evening's program particularly was a musical treat both in vocal and instrumental numbers, the most spectacular being Hillcrest orchestra in their selections "The War March of the Priests" and "Light Cavalry" overture.

Contestants from Coleman were Evan Gusbel, John Petrosko, Will Fred Burrows, Umie Johnson, Virginia E. Olson, Eladio Salvador, Walter Bobbitt, Bruno Gentile, Margaret McDonald, Marie W. Olson, Laura Maude Johnson.

### Tennis Club Meeting

The annual meeting of the Coleman Tennis Club will be held on Friday, April 13, at 7:30 p.m., in the council chamber.

In connection with the attendance at the public schools the average throughout the entire system stands at 96.8, states Principal Hoyle. Leaving out the high school, the public school average was 97.4 per cent, which is a very good showing. School will open following the Easter holidays on Monday next.

Mayor Burns brought up the matter of the town band and stated that he had endeavored to secure positions for band players in order to keep the organization alive, but had met with very little encouragement.

The financial statement for the past three months was laid on the table, and a number of accounts were passed for payment, following which the council took up the consideration of estimates of the various committees for the year's work.

### Baseball Fans are Preparing for Action

**Strong League Will be Organized to Affiliate with Alberta Association**

All supporters of baseball are urged to attend a meeting on Sunday at 2 p.m. in the council chamber, to organize Coleman baseball club for the coming season. Angelo Gentile, who last year was a manager of the Coleman team as manager, attended a meeting at Blairmore, when plans were discussed for a league along this line to include Pincher, Cowley, Hillcrest, Blairmore, Coleman and Michel.

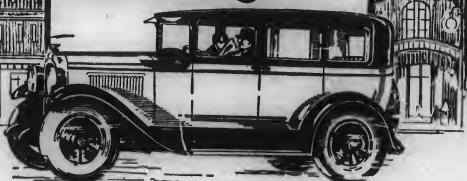

There is a strong desire by many in town to see Coleman on the baseball map this summer, and the boys are confident that if they are accorded public support by attendance at the games, the gate charges will enable them to finance without any difficulty. They need a good pitcher, and with the other players already here, there is no doubt that Coleman will organize a team second to none in the Pass.

Let's get behind the team and give the boys all the support possible, and if you are interested attend the meeting.

J. O. C. McDonald, formerly pit boss at McGillivray mine, left on Monday evening for Brule, Alta., after spending a few days here packing up furniture and household goods. Mrs. McDonald expects to leave on Friday evening, and will spend a few days with friends in Edmonton before leaving for Brule. Their daughters will remain here till the midsummer school vacation.

The W.M.S. of St. Paul's church will hold a pantry sale and conundrum tea in the club rooms of the church on Saturday, April 14 from 3 to 6 p.m.

## Railway Construction in the West

Only a few years ago there was a feeling throughout Canada that the construction of railways in the Dominion had been rather overdone. This opinion was freely expressed by men in public life, by bank presidents and financiers, and found expression in newspapers all over the country. The statement was frequently made that Canada had built railways fifty years in advance of the time when they would be needed and the population and productive capacity of the country warranted. The greatest financial danger confronting the Dominion, it was alleged, was its heavy commitments on account of railways.

The fact that Canada possessed the greatest railway mileage per capita of any country in the world, and the further fact that a few years ago during the war the Canadian Northern, Grand Trunk and Grand Trunk Pacific Railways got into financial difficulties and had to be taken over by the Dominion Government, and that for some years following during the peace war the Canadian National was operated at a heavy financial loss, no doubt accounted for these rather pessimistic views. An entirely different opinion exists today.

When the C.P.R. was first projected the same faint-hearted views prevailed. The idea of a transcontinental railway across Canada from the Atlantic to the Pacific, crossing thousands of miles of undeveloped prairie land and over the Rocky Mountains, was ridiculed in the English press as the dream of madmen, and even in Canada it was predicted that a railway would never earn the cost of its axle grease. The world realizes today how false all these dire predictions have proven to be.

The opinions expressed only a few years ago during the anxious days of the war and the world depression which followed are proving to be equally erroneous.

In a most instructive address before the Canadian Club at Regina recently, Mr. Cyril Young, of the Industrial Development Department of the Canadian National Railways, stated that for hundreds of miles along the main line of the new transcontinental, through the clay belt of Ontario, the railway was earning an operating surplus, while bringing about settlement and building up important industries, giving to Canada what heretofore it has lacked, depth into its immense width.

In the past, Canada has boasted of its boundaries resting upon two oceans, east and west. Now, with the rapid pushing forward of the Hudson Bay Railway, Canada looks forward with eager ardor and confidence to the day not far distant when all the rail lines will have passed through the third ocean, the north, and even before that railway is completed to tide-water, a branch line is being rushed to completion in order to handle the enormous traffic which will result from the development of the Flin Flon and other mining areas of the north which, it is predicted, will rival the rich mineral areas in the known world.

Today, instead of believing that railway construction has been overdone in Canada, the two great railway systems of the Dominion are steadily increasing their construction programmes. Last year Parliament authorized an extensive branch lines construction programme for the Canadian National, largely in Western Canada, and providing for the building within three years of some hundreds of miles of new railways. That work, which was started last year, is to be completed by 1928.

Now the C.P.R. is lag behind. The annual report of the Canadian government last month records the fact that during 1927 no less than 203 miles of new branch lines were graded and track laid on 170 miles, while for the year 1928 the directors recommend the building of no less than extensions in the provinces of Alberta and Saskatchewan involving the construction of an additional 247 miles of new lines.

Not to be outdone by the West, the Ontario Government is steadily pushing its system northward towards Hudson Bay, while branch feeders are spreading out into districts where mining developments are taking place.

The Government at Ottawa is confronted with applications for new railway charters for lines in northern Saskatchewan, Alberta and British Columbia, aggregating thousands of miles with a view to providing for the opening and development of the north country and the creation of new outlets to the Pacific.

These are the answers now being given to those who predicted disaster for Canada on account of its railway construction of a few short years ago. Take Saskatchewan as an example. Youngest among the provinces it already enjoys a railway mileage second only to that of Ontario, and during this year of 1928 work will be in progress upon approximately 500 miles of new branch lines, not including the Hudson Bay Railway and the Flin Flon branch, both of which will directly serve the Province.

And as if to provide the final answer to the faint-hearted of a few years ago, the Canadian National has turned its attention to the debts and substantial operating surpluses, surpluses actually large to meet all the interest payments on bonds and debentures held by the public, while, through its policy of settlement and industrial development all over the country, the Federal Government is receiving a substantial, albeit indirect, return for the money Canada has invested in that system.

Railway development, past, present, and future, is the foundation upon which Canadians are erecting a strong, prosperous, and ultimately self-contained nation, a nation that is destined to occupy a place in the very front rank of world powers.

The first known deposit of helium gas in Europe has been found at Rüsselsheim, Baden, in Germany, 600 meters under surface.

A motoring journal suggests that the radiator should be more artistic. After all, it is often the first thing about a car that strikes you.

## Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick correction is always with Phillips' Milk of Magnesia. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many times its volume in acid. It is harmless. It does not irritate the sensitive mucic. You will never again try crude methods, never continue to suffer, when you learn how quickly, how pleasantly that pre-empt method acts. Phillips' Milk of Magnesia—now—

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Western Canada Livestock Union  
Annual Convention For 1929 Will Be  
Held At Edmonton

The 1929 annual convention of the Western Canada Livestock Union, will be held in Edmonton, it was decided at the recent session of this organization, which was held in Vancouver, R. A. Wright, of Drinkwater, Saskatchewan, has been elected president of the organization for the coming year. J. L. Waters, of Clive, is the provincial vice-president for Alberta, Olaf Olafson, of Mortlach, occupies the same position for Saskatchewan, and George Gordon, of Oak Lake, for Manitoba. C. M. Learmonth, of Regina, continues as secretary of the Union for 1928.

## A SPRING TONIC AN AID TO HEALTH

You Can Lay the Foundation Of Good Health Now By Building Up Your Blood and Strengthening Your Nerves Through the Use Of Dr. Williams' Pink Pills.

The good old fashion of taking a walk in the Springtime, like most of the customs of our grandparents, is based upon sound common sense and good medical practice. Winter is a time of rest and recuperation, not in rugged health. Many men, women and children go through the winter in rather poor condition, having stored up during the sunny summer months, and grow increasingly pale and languid as the spring days approach. The result is that the cheeks and nerves at this time will do much for such people, by putting color in the cheeks and banishing that tired feeling of weariness and of people at this season of the year.

It is impossible to be energetic if your body is tired and worn out, if your nerves are frayed and shattered. You cannot compete with others if you do not get refreshing sleep at night or if your appetite is not good and you eat little well. You need a tonic at this time to add to your efficiency now, as well as to save you trouble later on. And in all the realm of medicine there is no safer or better tonic than Dr. Williams' Pink Pills. These pills tone and invigorate the entire circulatory system through every portion of the body, strengthening jaded nerves and run-down organs, and bringing a feeling of new strength and energy to women, easily tired, despondent men, women and children.

Mr. D. H. Huipman, Sudberryville, Ontario, writes: "Dr. Williams' Pink Pills have been of the greatest benefit to me. Seven years ago I was a baddy, run down condition, became weak and nerveless. Could scarcely go about and doing my housework left me constantly tired, and I was in a very discouraged condition when I began taking Dr. Williams' Pink Pills. These pills tone and invigorate the entire circulatory system through every portion of the body, strengthening jaded nerves and run-down organs, and bringing a feeling of new strength and energy to women, easily tired, despondent men, women and children."

Mrs. E. L. Huipman, Sudberryville, Ontario, writes: "Dr. Williams' Pink Pills have been of the greatest benefit to me. Seven years ago I was a baddy, run down condition, became weak and nerveless. Could scarcely go about and doing my housework left me constantly tired, and I was in a very discouraged condition when I began taking Dr. Williams' Pink Pills. These pills tone and invigorate the entire circulatory system through every portion of the body, strengthening jaded nerves and run-down organs, and bringing a feeling of new strength and energy to women, easily tired, despondent men, women and children."

You can get these pills from any medicine dealer, or by mail from 50 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

## Growth of Catholic Church

Catholics In United States Now Total

Nearly Twenty Million

There are 19,689,409 Catholics in the United States, the official Catholic directory for 1928 shows. This is an increase of 205,733 over last year.

The total of Catholic churches in the U.S. was listed at 16,293, with 27,733 priests. Of the latter, four are cardinal-archbishops, thirteen archbishops, and 91 bishops.

A Few For Asthma. Give Asthma half a chance and it gains ground rapidly. But give it repeated doses of Dr. W. E. Kellogg's Asthma Cure and it will fail to gain ground faster. There is no half way measure. There is only one treatment that goes right to the root and drives asthma out. It reaches the smooth breathing passages and leaves no place for the trouble to lurk. Have it by you for ready use.

Heavy Apple Production In Okanagan

It is estimated that there will be an apple production of 1,075,000 boxes in the southern part of the Okanagan Valley, British Columbia, this year. The estimate is based on present excellent prospects, all conditions in the orchards being of a favorable nature. Peaches, apricots and cherries also give promise of heavy yields.

Theatres and movie houses of New York have 1,500,000 patrons daily. There are 208 theatres and 580 movie houses with a seating capacity of 85,873.

People used to think the world was flat. Then it was found to be round. But it's still just a little crooked in spots.

## NAVIGATION TO PORT CHURCHILL SEASON OF 1930

Ottawa.—Navigation via the Hudson Straits to Port Churchill in the season of 1930 is the present objective of the Departments of Marine and Fisheries and Railways and Canals.

Plans are now being created for the setting up in the straits of two direction finding stations, similar to those operated by the Department of Marine on the Atlantic Coast, and in the Gulf of St. Lawrence.

The Canadian Government ship, Montcalm, will leave for the North about the middle of June, under the direction of Major N. R. MacLean, and the vessel will spend the summer in the straits. She will carry with her additional supplies and equipment to enable the three Royal Canadian Air Force bases to continue their work until the autumn.

During the summer, the work on the direction finding stations will be commenced and the ship will be in charge of this work will take over much of the equipment which the air force will leave when they conclude their work and start South. The Fokker planes will be packed up and returned to the Montreal.

It is understood that the air force will retain these planes which were purchased specially for operation in the straits.

The Department of Railways and Canals will probably send a special crew to the northern North to undertake the refitting of the ship, Canadian Raider, which was beached last summer after some difficulties were encountered.

### Dominions Must Decide

**Signature Of Anti-War Pact Left To Countries Involved**

Washington.—Whether the self-governing Dominions would sign separately any anti-war pact, which is concluded is a matter to be decided between the British countries themselves, said Frank B. Kellogg, United States Minister of State, to the Canadian press.

The United States would, of course, welcome the signatures of any or all of the British Dominions, he continued.

The secretary of state, had been asked if, in the event of Great Britain adhering to the proposed pact to outlaw war, Canada and the other British Dominions would be asked to sign separately.

Asked if he had had any conversation with the Canadian government on the subject during his recent visit to Ottawa, Secretary Kellogg replied that he had not.

The next step by the United States government has not been decided on, said.

### Movies Sent By Wire

**Ten Feet Of Film Used In Successful Experiment**

Chicago.—An advance in the transmission of pictures by wire was made when for the first time a motion picture was sent over telephone lines to New York city for display there.

A close up of Vilma Banky, motion picture star, was taken in the telephone offices of the American Telephone and Telegraph Company, and within half an hour the film had been developed and was being transmitted over the wires.

The film was cut up into short strips and sent as "titles" or ordinary pictures. At the other end of the line the strips were pieced together and then photographed on a regular motion picture film. Ten feet of film were used in the experiment.

### B.C. Student Receives Award

Toronto.—Dermot A. Davis, a student at the University of British Columbia, has been awarded a \$1,000 graduate fellowship in economics offered by the Royal Bank of Canada to the students in attendance at any Canadian university who submitted the best paper on one of several topics in connection with the important problems confronting Canada.

### Empire Fair Shows Deficit

London.—There was a deficit of £1,56,000 in connection with the British Empire Exhibition of 1924-25, according to Captain Douglas Hackling, M.P., parliamentary secretary of state for the Home Department, who was asked about the matter in the House of Commons.

### A Great Aid To the West

**Building Of Railways To Outlying Parts Proves Big Factor**

Toronto.—"One of the greatest things the Liberal Government ever did was the building of railroads to outlying parts of the country, such as the Northern's Bay Railway and new lines in the interior of Western Canada," said C. R. MacLean, M.P. for North Battleford, and proprietor of the North Battleford News, at a luncheon given by the Toronto Men's Liberal Association.

Years ago, he continued, Canadians flocked across the border, as there were no railroads in the back country. Today lines were being constructed and the result was that the country was filled up with good family farms all over the world. Speaking of immigration, Mr. MacLean said his district was populated by people from all parts of the world. "These people," he said, "who have toiled and labored to make homes for themselves must be given a place in the governing of our country. Otherwise in the future we will encounter trouble."

### Commander Daniel

#### Found Guilty

**Sentenced To Dismissal From Ship With Severe Reprimand**

Gibraltar.—The first court-martial growing out of the Royal Oak affair which has stirred the British navy ended with the conviction of Commander H. M. Daniel, on charges of conduct to discredit.

The court, after deliberating one hour and ten minutes, found him guilty on all charges and sentenced him to dismissal from the service and a severe reprimand. The sentence did not imply dismissal from the service and means that the commander will remain on half pay until it pleases the admiralty to appoint him to another ship or another post.

### Baldwin May Have

#### Another Term

**Will Be Returned To Power At Next Election** It is predicted.

Winnipeg.—The Baldwin Government will be returned to power at the next elections and the Liberal party will do better than did last time, declared Sir Robert Horne, ex-chancellor of the exchequer in the British Parliament, who spent two hours in this city while on route east in the course of a tour of the Empire.

Sir Robert considered Premier Brereton safe in being returned to power and the Liberal party, he thought, would be solid under Lloyd George. The latter, he said, was the only leader available.

### Ontario Session Ends

**Session Of Ontario Legislature Prorogued With Usual Ceremonies**

Toronto.—With a usual military pomp and traditional ceremony Lieutenant-Governor W. D. Ross formally prorogued the 1928 session of the Ontario legislature. Greeted on his arrival at the parliament buildings by a salute of booming guns, His Honor entered the legislative chamber sharp at three o'clock for the brief ceremony. The galleries were sparsely filled and many of the members had already dispersed to their homes. The desk of Alexander Stuart, M.L.A. for North Renfrew, who died on Sunday, was draped in a Union Jack surrounded with crepe.

The secretary of state, Mr. Heenan, was negotiating with Mr. Heenan; and it is probable that these two provinces will shortly also come under the federal plan. Legislation to enter into negotiations was recently passed by the legislatures of Manitoba and Saskatchewan.

The signature of Gold Commissioner MacLean was affixed under authority of an ordinance passed at the last session of the Yukon Legis-

lature.

**Use Drastic Methods**

**Bandits Receive Short Shrift From Mexican Troops**

Puebla, Mexico.—Bandits captured in the state of Puebla are being hanged to trees beside the highways wherever found in this region by federal troops and local governors.

The bandits, left dead and devoured by vultures, the authorities hoping that the grisly sight will deter other holdup men. At one point not far from Puebla two bodies sprung from a tree beside the road and at another point two bodies, while in several other places there are from one to three.

**To Vote On Beer Parlors**

Brandon.—Petitions containing over 1,700 names have been filed with the city clerk for a vote to be taken on the local option clause in the Manitoba liquor laws, and accordingly the council has decided that the vote will be taken on or about May 15. The vote must be taken within six weeks and on the result will depend the opening of beer parlors in this city.

**Veteran Pastor Passes**

**Alberta Government Purchases Quarter Section Of Farm At Wembley**

Edmonton.—Payment of a first installment in the purchase price of a quarter section of his farm at Wembley has been made to Herman Trele, the Peace River wheat champion, through the department of public works. An appropriation of \$5,000 was passed in the estimates for this purpose.

Under the terms of the agreement, the quarter section is to be leased to Mr. Trele for a term of five years with the option of purchase at the end of that time. The land adjoins the remainder of his holdings, on which his prize-winning wheat was grown, and is itself under cultivation.

It is understood that Mr. Trele will continue his experimental work in which he has already achieved such distinguished success, and the action of the government, which was a unanimous one by the committee, is in a way of demonstrating a province's grateful recognition of services rendered and good publicity provided through a double championship.

### Recognition For Herman Trele

**VETERAN PASTOR PASSES**

**Alberta Government Purchases Quarter Section Of Farm At Wembley**

It is understood that Mr. Trele will continue his experimental work in which he has already achieved such distinguished success, and the action of the government, which was a unanimous one by the committee, is in a way of demonstrating a province's grateful recognition of services rendered and good publicity provided through a double championship.

Under the terms of the agreement, the quarter section is to be leased to Mr. Trele for a term of five years with the option of purchase at the end of that time. The land adjoins the remainder of his holdings, on which his prize-winning wheat was grown, and is itself under cultivation.

It is understood that Mr. Trele will continue his experimental work in which he has already achieved such distinguished success, and the action of the government, which was a unanimous one by the committee, is in a way of demonstrating a province's grateful recognition of services rendered and good publicity provided through a double championship.

### Plan Study Of Arctic

#### Nineteen Nations Will Contribute To Work Of Conference

Washington.—When representatives of 19 nations gather in Leningrad next June, for an international conference on Arctic explorations, the United States may be one of them.

If so, it will mark the first time that the United States has participated side by side with a Russian delegation in such a conference since the United States sent an official delegation to the Conference of the League of Nations in 1920.

The foreign affairs committee of the House of Representatives has voted favorably on a resolution which proposed U.S. participation in the International Society for the Exploration of the Arctic regions.

Ottawa.—A sum of \$4,000 has been placed at the

**Action Required**

Indignation has frequently been expressed at the non-enforcement of bylaws restricting cattle and other livestock running at large within the town limits. The council is cognizant of the grievance, and if there is no consistent effort made to eliminate it, this nuisance will continue. Some people have apparently not got beyond the stage where they imagine that a townsite can be used as a farm yard or a grazing ground. It is beyond all reason or the limits of common sense for any person to allow animals to roam around chewing up ornamental trees and hedges, and trampling lawns and gardens. A few prosecutions and fines and payment of damages is the only effective lesson for those guilty of such offences, and it is high time that the council insisted that protection be afforded to the residents in this matter. If some people are allowed to follow their own inclinations regardless of others the townsite would have more the appearance of a dump ground than the home of civilized people.

If Coleman fire brigade cannot make a better showing than that of last week, there is very little hope for a reduction of fire insurance rates by the underwriters.

Canada's forests are going fast. Yet how many people in this country betray any concern?

As long as Canadians pay no attention to forest facts the mischief will go on.

Sixty per cent. of Canada's original forest wealth has been destroyed by fire!

Thirteen per cent. has been cut by axe and saw!

Twenty-seven per cent. is left as the capital to supply an increasing and an insatiable demand for lumber and paper and other products!

Twenty-seven per cent! In a few generations we have reduced our capital to 27 per cent of the original. And what have we to show for it? We have some cleared agricultural land which once was forest, but this in the case of the best farming regions at least, was chiefly hardwood forest. Our cut-over coniferous forest area is largely rough, sandy, rocky land of little use except where minerals may have been deposited.

Canadians should think over these things. "Canadian Forest Week" is an effort to have them do so. It means much to the future of this country. Unless the remainder of our forest capital can be protected and wisely used, in twenty-five years, at the present rate of destruction by fire and axe, we will have used up all our available timber.

Forestry experts claim that if fire can be kept out, Canada's forest growth each year will provide all the timber and pulp wood required. The chief problem, however, is not how to fight fire, but how to prevent it. Every man, woman and child who goes into the woods should know the danger and feel the responsibility.

Hon. Charles Stewart, Minister of the Interior, is doing a national work in organizing the fight against forest fires. The people of Canada could do infinitely more, however, by exercising care to prevent them.

Carelessness in the woods has cost Canada untold millions through forest fires, which have destroyed 60 per cent. of the original forest.

**St. Alban's Church**

Easter at St. Alban's church was marked by bright services, with special hymns for the occasion. The church presented a festal appearance, being decorated with Easter lilies and daffodils, with a generous sprinkling of holly and fern, for which the rector expressed the thanks of the congregation to the donors. Communion services were held at 7 and 9 a.m., which were attended, by quite a large number of communicants, and in the afternoon a number of adults were present at the children's service, when prizes were distributed for 1926 and 1927 attendance records. In the evening the church was filled, and two fine bass solos were given by Mr. R. Bromley, Mrs. Salt accompanying on the organ.

Thanks are due to the following for the flowers and decorations used in the church on Easter Day: Mr. and Mrs. Brown, Kelowna, B.C.; the senior and junior W.A.; Mrs. M. E. Graham and Mrs. Currie; also for the work of decorating the church to Mrs. D. Griffiths, Miss Mae Moores and Mrs. Currie.

Many stated that the church had never looked so beautiful.

The Diocesan magazine has now come to hand and the members soon receive a copy. Please hand in the card enclosed either at the church or to the rector before the end of the month if you wish to become a subscriber. Only 50 cents per annum.

Services for Sunday, April 15: 9 a.m., Holy Communion; 7 p.m., Evensong.

On Sunday, April 22, the Rev. W. Simpson, western secretary of the General Board of Religious Education, will visit the parish, address the Sunday school and preach at the evening service.

The weekend picture at the Palace is "The Underworld," with an all star cast. Matines 2 p.m. on Saturday.

**Musical Treat for  
Pass Residents**

The management of the Blairmore opera house has at considerable expense booked the largest opera company touring Canada, today, in the famous opera "Il Trovatore," under the personal direction of Basil Hornfall, noted opera producer and director. This grand production with its aggregation of famous opera stars, full chorus and scenic effects will be produced on Monday, April 16th, and every music lover in the Pass should not miss this opportunity of hearing the much beloved opera.

Nearly everyone knows the story of Il Trovatore. The opera, which is undoubtedly Verdi's masterpiece, is founded on a drama belonging to the fifteenth century. The story is that Traviatore, or the Troubadour, is Manrico, the supposed son of a gypsy, but really a brother to the Count di Luna. The princess Leonora falls in love with the Troubadour, and the Count in jealousy arranges to put Manrico to death, the princess intercedes on his behalf and promises to give herself to the Count if he will spare her lover. The Count consents to this, but while he goes to release the captive, Leonora destroys herself by taking poison. When Manrico discovers this sad fatality he, broken hearted, dies also.

The music of this opera is beautiful and is generally favored above all other operas, and the wonderful aggregation of stars in the National Opera Company is guaranteed enough that the famed solos and choruses will be rendered in perfect manner. Following is the personnel of the operatic stars in this production. Joseph F. Sheehan, celebrated American tenor, in the difficult role of Manrico, the Troubadour; Franklin Meeker, famous lyric baritone, takes the villain's part, Count di Luna; Frederick Wheeler, bass and soloist of the Damrosch Symphony Orchestra, as Ferrando, and Bohman Johnson, famous tenor, as Ruiz. The leading role of Princess Leonora is capably handled by Miss Mercedes Dalmaida, noted soprano of the London Opera House, while Miss Thelma Baird, well known soprano, plays the part of Inez and the difficult characterization of Azucena is wonderfully enacted by Miss Martha Richardson, contralto of the Chicago Opera Company. These noted voices are ably supported by full chorus, under the personal conductorship of Basil Hornfall.

The admission charges are the lowest known for a production of this kind: One dollar for reserved seats, balcony 75¢ and children 50¢, and one is advised to get their bookings at Capt. Beebe's office as early as possible. This is not a moving picture, but an up-to-date legitimate stage success produced by one of the best companies on tour.

**CLASSIFIED ADVTs.**

Advertisements under this heading such as Sale, Rent, Found, Etc., are charged at the rate of 10¢ per line, counting five words to the line, with a minimum charge of 35¢.

### WORLD HAPPENINGS BRIEFLY TOLD

Active preparations are being made for the prohibition poll in New South Wales, in September. The liquor business is to be compensated to the extent of \$100,000,000.

When Gen. Umberto Mobile recites the North Pole in his dirigible, Italian will draw a medal to compensate him for the loss of the Alpines who were killed in the war.

British Columbia is shipping more dairy cattle to China, and, despite political uncertainty there, the market for good stock continues in a healthy condition, according to Dr. A. Knight, Provincial Live Stock Commissioner.

A radio message which described terrific Arctic storms has been received by Edward Howe Forbush, Boston state director of ornithology, from Compton, Calif., MacMillan who was en route to Ecuador is now at anchor in a Labrador harbor.

Hon. Peter Hennan, federal minister of labor, may represent Canada at the international labor conference at Geneva this year. The conference opens on May 30, and should the parliamentary and industrial situation of the country permit of the minister's absence, he will undertake the trip.

### Going Fishing?

Minard's is a reliable first aid for sprains, cuts and bruises. Also good for insect bites. Put a bottle in your kit.

There are now 115 miles of roads in Jasper National Park, Alberta, of which 38 miles are surfaced for automobile traffic. Added to this are some 20 miles of well defined trails leading to various points of interest.

### COLDS COST MONEY

It is estimated that fifteen million dollars are spent each season by Porter's Liniment. It is sold to farmers under contract with the Manitoba Cordage Company, whose factory is located in that city. The industry is thriving and though manufacturing of cordage only began last year, it has been found necessary to install additional machines in order to keep up with demands for the company's product.

### Milford Farmers Grow Hemp

It is expected that fifteen million dollars will be spent this season by Porter's Liniment. It is sold to farmers under contract with the Manitoba Cordage Company, whose factory is located in that city. The industry is thriving and though manufacturing of cordage only began last year, it has been found necessary to install additional machines in order to keep up with demands for the company's product.

### Have Different Methods

Telephone companies in York hotels know where a guest comes from on the way he answers the phone. A guest from the South will usually answer "All right," instead of "Hello." Those from Canada say "Yes." While those from the Midwest usually answer with a "Well?"

### Small Town Papers

FRANK PARKER STOCKBREWER  
Reprinted by Special Permission from Saturday Evening Post, Copyright 1928, by Curtis Publishing Company, Publishers.

"So they were," he answered. "I was raised on the farm, but I never liked it. That's why I came down to New York in the first place. And when I did, I sold the farm and bought the paper—the Middleboro Gazette. Couldn't get the virtue of printer's ink out of my system."

I waited for Bert to go on, but he said nothing more in response to my question.

"I meant your gold mine," I ventured after a moment of silence. "What do you mean when you say you've been in? You seem to have been successful."

Bert looked at me with a puzzled expression, as if he thought I was trying to kid him. "Why, I just told you," he said. "I bought the Middleboro Gazette."

I said to once that I must have seemed stupid to Bert. Some big industry had picked Middleboro to move into, and so I had moved into a big city, as the General Electric did at Schenectady. But for the life of me I couldn't remember which industry it was. I was thinking, I couldn't think of anything to connect the name of the town with. But I didn't let on to Bert.

"Oh, I see," I responded cheerfully. "An American town grew big enough for a daily you grew with it, eh? Fine! What's your population, now, anyway?"

"Not the same as it always has been; maybe a little less," he answered. "Around 2,000. But we've got a circulation now, though, that's not bad for a country quickly." He had been before, Middleboro will need a daily, if any."

"Hold a minute, Bert," I gaped.

"Let me get this straight. You've been right there in Middleboro for twenty years running, running a weekly newspaper with over 500 people all now you're retired on your income and your wife goes shopping in Fifth Avenue and—Oh, what's the use?"

"I don't know you as well as I used to, I think you were trying to put one over on me. Do you mean to tell me that you're getting more than much money, or any money more than a bare living, and a poor one at that, out of a country weekly?"

"I was very weak and melancholy, and so nervous I could hardly sleep to hear a clock ticking, and I did not sleep well."

"I was advised to try

"so I went at once to a doctor, took a short time ago. I'm treated very badly with my heart and nerves, the cause of it, I think, is my going through the change of life."

"QUALITY GOES IN  
BEFORE SPILLERS  
NAME GOES ON"

the program a business meeting was held when officers for the next season were elected as follows:

President, W. Roughhead; vice-president, W. Leer; secretary, W. L. Rippon; committee, Ed Ledieu

H. C. McBurney, H. Boulton. The musical program was quite varied, and several local gentlemen kindly gave their services, including Mr. Smith, who played the accordion, Mr. All Phillips,

The Junior W.A. of St. Albans' held a very successful whist drive in the parish hall on Monday evening. The prize winners were Roy Brown, J. Rogers, Mrs. Cornett, (gentlemen's) and Miss Clifford, Mary Gillepée and Mrs. Dan Griffiths, (ladies' prizes)

Noblesford is going to plant trees this spring. There is hardly a town in the South which wouldn't benefit by a tree planting campaign over a period of five years or so. May 7th is Arbor Day this year, which would be a good time to make a start. It's a community undertaking which no community can afford to overlook.—Lethbridge Herald.

Several of the members of Coleman branch Canadian Legion attended the opening of Bellevue branch's fine club on Monday, including the president, W. Holley, P. Smith, secretary, and Comrades J. Yates, Tom and Bob Lloyd, Wm. Bell and J. Bell.

A very good program was given, and members were also present from the Blairmore branch. Bellevue branch has purchased a building and now has a very comfortable meeting place for its members and visitors.

Registered Optometrist

### Personal and Local

A. M. Morrison and C. S. Ouimette were visitors to Calgary yesterday.

Coleman Trading Co. is offering the balance of their potted plants at 20 per cent. reduction.

The C.W.L. will hold a whist drive in the catholic hall this evening (Thursday) at 8 p.m. The public are cordially invited.

W. J. Battlett, proprietor of the Blairmore Enterprise, is at present in Newfoundland, owing to the serious illness of his father.

Be sure to attend the dance in aid of the swimming pool on Monday evening, April 16, for which Alternatief's 3-piece orchestra has been engaged.

Mrs. Snod has returned to her home in town, after living for several weeks at Blairmore following her stay in Edmonton University Hospital.

Mr. and Mrs. Naylor, of Frank, have leased the McDonald house on Third street. Mr. Naylor is employed as storekeeper at the International mine.

Bud Clarke's small statue stood him in good stead last week, when he was pinched between two mine cars at the McGillivray mine. Had Bud been of greater girth it is probable that he would have suffered severe injuries. Luckily he escaped with a very bad squeeze, which compelled his removal to hospital, but he expects to be out this week.

### Easter Sunday at the United Church

The Easter services at St. Paul's United church were largely attended. Services had been held on four evenings of the week culminating in that of Good Friday evening, which taxed the seating space of the larger clubroom. This was preparatory for the Communion. At this service 21 new members were received, seven adults and the remainder from among the older members of the church school.

For the Easter services the front of the church was simply decorated with daffodils and lilies. At the eleven o'clock service the church was crowded. At the very impressive communion service which followed there were nearly 90 persons who partook of the Sacrament. This was an outstanding morning in the history of the congregation.

The 22nd anniversary of the opening of the church will be held on April 29-30. The special preacher for the occasion will be Rev. Robt. Pearson of Wesley church, Lethbridge. Details will be announced next week and the congregation is asked to arrange to keep this important week-end free for the special events.
